\*Standard= Defined as a lift inserted into a split sole with no extra work.

Boot – Add \$20 to standard shoe lift price.

Toddler Size Shoe or Boot – Less than 5" subtract \$10 from standard shoe or boot lift price.

Shipping: You ship to us, we will ship back to you. No charge.  
\$10 to return a shoe to you we do not work on.

Our prices include both our work and the cost to ship back to you unless we are shipping overseas, to Alaska or to Hawaii. Shipping to Alaska and Hawaii costs \$5 per shoe. International shipping costs are determined after receipt of the shoe by weight and shipping distance.

Keep in mind we always try to split the sole and insert the lift within. Send us a picture of the shoe you are considering to get some insights. Visit <http://www.solelyorthopedicliffts.com/tips-about-shoe-liffts/> for more tips about lifts.

Added Service(s) at an extra cost:

- Wedges on top of full lifts – see wedge price list and full lift price list
- Honeycomb the lift for less weight and more flexibility, \$15-\$20
- Paint the lift a custom color, \$10-\$15
- Build an insert – a loose wedge you can use inside a shoe for all or part of your discrepancy – cost is \$5 less than wedge price with \$10 minimum cost
- Loose heel insert - \$25
- Loose full insert - \$45
- Remove a lift - \$25 less than lift cost but no less than \$30

Special Handling at an extra cost: As \$15-\$35

- Working around hindrances that keep us from simply sply splitting the sole
- Putting additional shoe features that will come apart back together after splitting the sole
- Any non-standard split where a standard split is simply a cut in the sole to accommodate the lift with no extra work
